INDEX BY SUBJECT

Capital Budgeting

"Impacts of Subsidized Security on Stability and Total Social Costs of Equilibrium Solutions in an N-Player Game with Errors," Jun Zhuang — 55(2):131–149

Cash Flow Analysis

"Project Balances as Division Coefficients and Implications for Rate of Return Analysis," Ronald D. Dearing; Richard V. Helgason — 55(1):38–51

"The Simple Meaning of Complex Rates of Return," Axel Pierru — 55(2):105–117

"Average Internal Rate of Return and Investment Decisions: A New Perspective," Carlo Alberto Magni — 55(2):150–180

"Probability Distribution Function of the Internal Rate of Return for Short Term Projects with Some Random Cash Flows and Extensions," Huseyin Sarper, Gokce Palak, Paul Chacon and Jane Fraser — 55(4):350–378

"Technical Note: Synthetic Division of the Future Value of a Cash Flow Stream," Samuel Chiu — 55(4):379–394

Case Studies

"Case Study: Solving a Rental Fleet Sizing Model with a Large Time–Space Network", Peiling Wu and Joseph C. Hartman — 55(1):71–104

"Cost Estimation and Sensitivity Analysis on Cost Factors: A Case Study on Taylor Kriging, Regression and Artificial Neural Networks," Heping Liu — 55(3):201–224

"The Accuracy of Hybrid Estimating Approaches: A Case Study of an Australian State Road & Traffic Authority," Li Liu, George Wehbe and Jonathan Sisovic — 55(3):225–245

"Technical Note: Synthetic Division of the Future Value of a Cash Flow Stream," Samuel Chiu — 55(4):379–394

Case Studies

"Case Study: Solving a Rental Fleet Sizing Model with a Large Time–Space Network", Peiling Wu and Joseph C. Hartman — 55(1):71–104

"Cost Estimation and Sensitivity Analysis on Cost Factors: A Case Study on Taylor Kriging, Regression and Artificial Neural Networks," Heping Liu — 55(3):201–224

"The Accuracy of Hybrid Estimating Approaches: A Case Study of an Australian State Road & Traffic Authority," Li Liu, George Wehbe and Jonathan Sisovic — 55(3):225–245

Cost of Capital

"A New Market Risk Mitigating Approach to Combined Heat and Power Project Finance Without the Benefits of a Power Purchase Agreement," Timothy Lockwood and Irmak Renda-Tanali — 55(1):1–37

"Balancing Coverage and Financial Sustainability in Pro-Poor Water Service Initiatives: A Case Study of a Uganda Project," Silver Mugisha and Tatiana Borisova — 55(4):305–327

Cost Estimation

"Further Evidence on the Dynamic Link Between Capacity Utilization and Inflation," Bradley T. Ewing; Mark A. Thompson — 55(2):118–130

"Cost Estimation and Sensitivity Analysis on Cost Factors: A Case Study on Taylor Kriging, Regression and Artificial Neural Networks," Heping Liu — 55(3):201–224

"The Accuracy of Hybrid Estimating Approaches: A Case Study of an Australian State Road & Traffic Authority," Li Liu, George Wehbe and Jonathan Sisovic — 55(3):225–245

Economic Decision Analysis

"Project Balances as Division Coefficients and Implications for Rate of Return Analysis," Ronald D. Dearing; Richard V. Helgason — 55(1):38–51

"Integration Model of the Financial Analysis Methods of Investment Projects," Józef Buko — 55(1):60–70

"The Simple Meaning of Complex Rates of Return," Axel Pierru — 55(2):105–117

"Average Internal Rate of Return and Investment Decisions: A New Perspective," Carlo Alberto Magni — 55(2):150–180

"A Study of Correlation Aspects in Probabilistic NPV Analysis," Khalid Johar, David G. Carmichael and Maria C. A. Balatbat — 55(2):181–199

"Probability Distribution Function of the Internal Rate of Return for Short Term Projects with Some Random Cash Flows and Extensions," Huseyin Sarper, Gokce Palak, Paul Chacon and Jane Fraser — 55(4):350–378

Real Options

"The Timing Option and the Interest Rate Sensitivity of Investment," Jacques A. Schnabel 55(1):52–59

"Switch, Switch, Switch! A Regime-Switching Option-Based Model for Valuing a Tolling Agreement," Francesco Baldi 55(3):268–304

Risk Analysis

"A New Market Risk Mitigating Approach to Combined Heat and Power Project Finance Without the Benefits of a Power Purchase Agreement," Timothy Lockwood and Irmak Renda-Tanali 55(1):1–37

"The Timing Option and the Interest Rate Sensitivity of Investment," Jacques A. Schnabel 55(1):52–59

"A Study of Correlation Aspects in Probabilistic NPV Analysis," Khalid Johar, David G. Carmichael and Maria C. A. Balatbat 55(2):181–199

"Improving Financial Performance with Hedging Via Forwards for Electric Power Generation Companies," Chung-Hsiao Wang and K. Jo Min 55(3):246–267

"Switch, Switch, Switch! A Regime-Switching Option-Based Model for Valuing a Tolling Agreement," Francesco Baldi 55(3):268–304

"Number of Development Wells: A Decision under Uncertainty," Mansoor Al-Harthy 55(4):328–349

"Probability Distribution Function of the Internal Rate of Return for Short Term Projects with Some Random Cash Flows and Extensions," Huseyin Sarper, Gokce Palak, Paul Chacon and Jane Fraser 55(4):350–378

The Engineering Economist

Tables of Contents for Volume 55

Volume 55, Issue 1

A New Market Risk Mitigating Approach to Combined Heat and Power Project Finance Without the Benefits of a Power Purchase Agreement 1
Timothy Lockwood and Irmak Renda-Tanali

Project Balances as Division Coefficients and Implications for Rate of Return Analysis 38
Ronald D. Dearing and Richard V. Helgason

The Timing Option and the Interest Rate Sensitivity of Investment 52
Jacques A. Schnabel

Integration Model of the Financial Analysis Methods of Investment Projects 60
Józef Bućko

Case Study: Solving a Rental Fleet Sizing Model with a Large Time–Space Network 71
Peiling Wu and Joseph C. Hartman

Volume 55, Issue 2

The Simple Meaning of Complex Rates of Return 105
Axel Pierru

Further Evidence on the Dynamic Link Between Capacity Utilization and Inflation 118
Bradley T. Ewing and Mark A. Thompson

Impacts of Subsidized Security on Stability and Total Social Costs of Equilibrium Solutions in an *N*-Player Game with Errors 131
Jun Zhuang

Average Internal Rate of Return and Investment Decisions: A New Perspective 150
Carlo Alberto Magni

A Study of Correlation Aspects in Probabilistic NPV Analysis 181
Khalid Johar, David G. Carmichael, and Maria C. A. Balatbat

Volume 55, Issue 3

Cost Estimation and Sensitivity Analysis on Cost Factors: A Case Study on Taylor Kriging, Regression and Artificial Neural Networks 201
Heping Liu

The Accuracy of Hybrid Estimating Approaches: A Case Study of an Australian State Road & Traffic Authority 225
Li Liu, George Wehbe, and Jonathan Sisovic

Improving Financial Performance with Hedging via Forwards for Electric Power Generation Companies 246
Chung-Hsiao Wang and K. Jo Min

Switch, Switch, Switch! A Regime-Switching Option-Based Model for Valuing a Tolling Agreement 268
Francesco Baldi

Volume 55, Issue 4

Balancing Coverage and Financial Sustainability in Pro-Poor Water Service Initiatives: A Case of a Uganda Project 305
Silver Mugisha and Tatiana Borisova

Number of Development Wells: A Decision Under Uncertainty 328
Mansoor H. Al-Harthy

Probability Distribution Function of the Internal Rate of Return for Short-Term Projects with Some Random Cash Flows and Extensions 350
Hüseyin Sarper, Gökçe Palak, Paul R. Chacon, and Jane M. Fraser

Technical Note: Synthetic Division of the Future Value of a Cash Flow Stream 379
Samuel S. Chiu
